accessCHOA

Children's Healthcare of Atlanta | Sibley Heart Center CARDIOLOGY

For more information and to sign up visit accessCHOA

What is accessCHOA?

accessCHOA is a free, secure, Web-based electronic health record system that provides instant access to your patients' information.

access»CHOA

Your access to Children's Healthcare of Atlanta powered by EpicCare Link

How does it work?

Use accessCHOA to:

- Place an order for outpatient testing or rehab therapy and notes or instructions for the order
- Check for appointment status and patient scheduling information
- View results and notes
- Access billing, clinical or visit information about your patients seen at Children's

How do I register for accessCHOA?

Help us point you in the right direction. Select an option:

- **I am a physician practice** (Physician office that refers or treats patients seen at Children's)

- **I am a post-acute care facility** (Destination, home care, DME coordinator, dial-infusion, social care, ect.)

How can I start placing outpatient orders in access»CHOA?

You must be a clinician (physician, mid-level provider or nurse) to add orders, and a representative (clinical or non-clinical) must participate in orders training.

- **Sign up for training**

- **Request for support**
