

July 26, 2022

Dear Referring Provider,

We are pleased to announce Sibley Heart Center Cardiology will be renamed Children's Healthcare of Atlanta Cardiology in October 2022. The purpose of this change is to align the ambulatory cardiology clinics with the Children's Healthcare of Atlanta Heart Center, thereby streamlining the continuity of care between our outpatient and inpatient services. Although our name may be changing, the high-quality individualized care that your patients are accustomed to receiving will remain the same.

The following changes are part of this transition:

- Name: The new name will be Children's Healthcare of Atlanta Cardiology.
- Phone number: The phone number will remain the same. Continue to contact us at 404-256-2593 or 800-542-2233.
- Fax number: The fax number will remain the same.
- Locations: The office locations will remain the same.
- Referral Process: Please continue to use the same process for scheduling appointments, making referrals or consultations. You will be notified of any referral process updates closer to the official name change.

We look forward to continuing our relationship and will work with you to provide the necessary communication and support.

Sincerely,

Cyrus Samai, MD

Chief Operating Officer

Director of Outpatient Cardiology
